

Weekly Progress Report

Name: Roshan Sharma

Domain: Embedded & IOT

Date of submission: 17th April 2024

Week Ending: 05 (Final Submission)

I. Overview:

This week, the primary focus was on understanding using Git and making new repository in github and uploading using local machine.

II. Achievements:

1. Learned about Git.
2. Learned about making new repository in github.
3. Learned about Uploading files in the github using local machine.

III. Challenges:

Encountered challenges in coding the program for a IOT & Embedded Project I selected on the topic: smart home energy management system.

IV. Learning Resources:

I have referred to the learning resources provided by upskill campus and internet.

V. Next Week's Goals:

Looking forward to the Internship Completion and learning more in life.

VI. Additional Comments:

"Great things take efforts and patience to happen, so I will keep thriving to enrich my knowledge which could help me to uplift our lives"
